Letters are out and we're hoping for a really good January thru March Test season...Jeff & Wayne

**KUMA-1290**, P.O. BOX 340, Pendleton OR 97801 will conduct a special DX Test on Sunday morning December 10, 1990 beginning at 0305 EST. This test will consist of a special public service announcement for the National Radio Club. There will be Morse code ID's contained with in the announcement. This will air two or more times between 0305 and 0330. KUMA will be broadcasting NBC TalkNet at this time. Our thanks to Mr. Greg A. Smith, General Manager. Arranged by the Colorado CPC Machine for the National Radio Club.

**KTIL-1590**, P.O. BOX 40, Tillamook, OR 97141 will conduct a special DX TEST on Sunday morning December 16, 1990 from 0300 to 0330 EST. Test will consist of music and ID's. Our thanks to Van Moe, President, for this test. Arranged by the Colorado CPC Machine for the National Radio Club.

**KCKN-1020**, BOX 670, Roswell NM 88202 will be conducting a Proof of Performance test on December 17, 1990 from 0230 to 0300. They will leave the air at 0200 to vacuum out the XMTR and begin when they're done. Test will consist of tones and ID's and possibly Christmas music. Our thanks to Don Niccum, CE, of the NRC for this fine opportunity.

**KMBI-1330**, S. 5408 Freya St., Spokane, WA 99223 will conduct a special DX TEST on Monday morning December 17, 1990 from 0300 to 0330 ELT. The test will contain music, voice and Morse code ID's. Our thanks to Gordon Canaday, CE, for this fine opportunity. (Many of you may remember Mr. Canaday running a test in 1987!) Arranged by the Colorado CPC Machine for the National Radio Club.

**They joined ...** Gregory Martinez, Elmwood

Park, IL; Arthur Caswell, Durand, MI; Dave Bright, Tallahassee, FL; and Aaron B. Ervie, Marceline, MO.

**From the editor ...** Everyone forgot to Muse this issue, so Dave tells me. Tsk, tsk! But we welcome new columnist Laura McCusker to this issue; she'll be keeping us up to date on the latest happenings in the radio industry, while Pete Kemp, who has provided "Radio Roundup" in one form or another for nearly ten years, will be keeping up with personalities. Please feel free to mail direct to Laura and Pete clippings about radio happenings in your area, and don't forget that changes involving formats still go directly to Tony Fitzherbert. If you're not sure who gets what, send clippings to Topeka or one of the columnists and we'll take care of forwarding them.

**December break ...** Please note that after the next issue (#11, Dec. 17) we'll take a break to avoid the holiday postal crush, and #12 will be in your mailbox around Dec. 31. In other words, you'll receive no issue around Dec. 24.

**New DX'ers ...** We'd like to start a new column aimed at beginning BCB DX'ers. If you'd like to edit it, please apply, in a typewritten letter, to the publisher in Topeka.

**DX Time Machine ...** We've been running 50-year-old items as printed in the NRC 50th-anniversary book, but the listings end on Dec. 28, 1940. If anyone who still has those bulletins would send contributions, we'd appreciate it!

## DX Time Machine

### From the Pages of DX News

50 years ago ... from the Dec. 7, 1940 DXN: The list of 48 best heard TP stations was included.

25 years ago ... from the Dec. 11, 1965 DXN: Richard E. Wood, Bloomington, IN mentioned that he was able to inform the CE of WHB-710 that interference reported to him by listeners was actually Cuban jamming of WGBS in Miami.

10 years ago ... from the Dec. 8, 1980 DXN: John Kromka's NRC Contest standings, in order, were Earl Higgings, Michael Jeziorski, Bob Curtis, Bill Regan, Eric Loy, Paul Mount, Bruce Conti, Nancy Hardy, and Ray Barno.

## OTHERNESS

730 WSST GA Thomasville: this is the station given away in the MTV contest. The winner, Chris McCarron, is now thinking about moving to Thomasville to operate her new station in lieu of nearly \$100,000 in cash which was the alternative prize. Is it possible that Ms. McCarron, in all the excitement of winning, took temporary leave of her senses? Your editor would take the money and run!

### MEDIUM WAVE AMBLINGS

- A couple of issues ago we asked about the KPBC/KGGR mixup in Dallas. An unexpected trip by your editor through that area solved some of the controversy, but a few strings were left dangling. **B.B. McChurkin** of Irving, TX has written with all the details. See 770 & 1040 in SPECIAL, below. Thanks, B.B.!
- **Dave Evans** of Brossard, Quebec points out the fact that Quebec now uses **QC** as its two-letter abbreviation. So, when reporting Quebec stations be sure to make that change...so I'll remember, too. Sounds like **Mike** has a job ahead of him!!
- Remember...DX must be kept current. With few exceptions, reports older than 30 days by my deadline will grace my new Rubbermaid trash basket. Also keep in mind the two-week break upcoming between Issues 11 and 12.
- In answer to **Rich Frohe's** question about the **Kowalski Loop**, **Robert Kramer** writes the following: *This loop was made by NRC member Paul Kowalski of Milwaukee a number of years ago. I believe I purchased mine around 1981 or '82. He has long since stopped making them. The loop is an FET ferrite job, similar to the Radio West Loop. Paul made two models, one with a large ferrite rod and one with a small one. Mine is the small one. Well, that settles that. Thanks, Bob. Next question...?*

### SPECIAL

- 640 WBMX MI ZEELAND** - as of 11/13, back on a regular schedule of 24 hrs NSP; format is now **EZL**, automated; still no phone, and they occasionally run an OC when tapes run out (station is apparently unattended part of the time) (PLB-MI)

- 820 WPNT IL CHICAGO** - is now *The Point*, simulcasting 100.3 with *Hits From the 80s and Today*, with good old Rock 'n' Roll targeting the 21-35 market; IDs as **WPNT AM & FM, The Point** (RW-IN)
- 1040 KGGR TX DALLAS** - operates LSR-LSS with D1 1000; sign-on date was 7/15/90; mailing address is 3929 S. Polk St., Dallas, TX 75224 and phone is 214-372-9000; XR is in north Dallas, studios in far south Dallas; verie signer is ???, but letters would be answered; format is GOS/REL (BBMcC-TX)
- 1330 KWLO IA WATERLOO** - 11/8 1730 noted with TLK, so they are not silent anymore (MH-NE)
- 1460 WUFI IL RANTOUL** - has returned to the air with an all-news format; carries CNN Headline News + has local updates; has virtually turned into a Champaign-Urbana station. (RW-IL)
- 1560 WQXY KY HAZARD** - 11/11 0615 sign-on preceded by 3 beats on a snare drum, but no SSB; sed they were owned by **Black Gold Broadcasting Inc.** with xmtr on Hwy 476 in Rowdy - CHR mx; fair over a nulled WQXR; ex: WYZZQ & OLD (REH-ON)

### UNIDS AND UNID HELP

- 601 UNID ??** - 10/12 0635 off frequency SS station playing a variety of LA mx; looped a shade west of due south; heavy WTVN splash made for tough copy; still there 10/18 with sign-on at 0600 (0700 on Sunday 10/14) (REH-ON) [Note: this corrects my typing error in report...sorry - Ed.]
- 780 WLRM MS RIDGELAND** - ref: RF-OH's unID...I seem to remember reading something about this being a WNN affiliate (DS-WT) ...this may be RF-OH's unID; I have a tentative logging of them with WNN programming and they do have a TLK format (MH-NE)
- 890 UNID ??** - 10/26 0809 w/GOS, poor under WLS; occasional REL mx was okay, but the preacher was too soft-spoken; likely either KGGN or KBYE (DS-WI)
- 910 WALT MS MERIDIAN** - possibly **Mike Hawk's** unID of 10/15 (Issue 5); when last hrd, they had a mix of soul & rap; doesn't use *Walt* as a slogan; if I remember correctly, they call themselves *T-910* or *T-91* or *91-T* or... (REH-ON)

- 1000 UNID 77 - 10/26 0843 poor under WLUP with C&W; unable to pull out announcer; probably KXRB (DS-WI)
- 1150 UNID 77 - 11/8 - 2045 with MoYL-type mx and an ID which sounded like *WDEL*; could this have been *WDEL* with a change in format? (RW-IN)
- 1230 UNID 77 - 11/10 1935-2021 *Celtics* vs *NJ Nets* BKB at Meadowlands; my guess WESX; very poor under 2 others; no ID heard or given during fade (DT-ON)
- 1570 UNID 77 - 11/17 2000 poor with ID for 92.5 FM; Central TC and USA Radio Nt (MH-NE) [A quick scan of The Log & the FM Atlas shows one 1570/92.5 combo. KYCR/KQRS Golden Valley, MN. Maybe? - Ed.]
- 1590 UNID 77 - 11/12 2020-2315 University of Miami college FB; *WVAL* (?) in the Valley, under an WAKR and an unID with REL pgm (DT-ON)

### DX AND EQUIPMENT TESTS

- 950 WWJ MI DETROIT - 11/12 0100-0358 off completely for maintenance; unns WJPC, WGOV, WQBE, CFAC & *newies* KJJO, WHVW hrd in their absence; no sign of unns KYGO which dimmed my hopes for KRXY-1600 TEST (REH-ON)
- 990 WITZ IN JASPER - 11/4 0530-0600 just maybe, 2 seconds of code at 0549, 2 seconds of TT at 3 different pitches @ 0555; not enuf for a report; dominated by CHTX (DT-ON)
- 1130 KLEY KS WELLINGTON - 11/4 0630-0700 nothing on frequency at all (DT-ON) [This is correct city, Don - Ed.]
- 1280 KVOX MN MOORHEAD - 11/4 0600-0630 continuous TT, mostly CJMS in & out (Montreal's night) (DT-ON)
- 1350 WCOP GA WARNER-ROBINS - 11/11 0435 with clear W-C-O-P CID followed by VID: ?????? *WCOP 1350 Warner Robins*; no other IDs hrd for remainder of TEST; channel was a mess with WSLR's C&W, CKAR's reggae/calypso and somebody off frequency just enough to cause a loud rumble; slept thru first 10 minutes of TEST, but fortunately I practice safe DX and had set timer/recorder just in case, sure glad I did! (REH-ON)

Thanks to John for also sending in the David M. Clark report from Numero Uno concerning the shift of RPH stations to new frequencies.

Also a note from Chuck Hutton, who promises to send "megapages of stuff" from Europe if/when he can get his R7 to Madrid! I think "megapages" means the former editor's revenge on the new editor!

No loggings from Rochester this week, due to Thanksgiving vacation in Maryland. The only thing heard on the Sony ICF-2010 down there was R. Taino - 1180, which I haven't heard in Rochester.

# Formats

**Tony Fitzherbert**

356 Jackman Avenue  
Fairfield, CT 06430

Changes in programming status; reported by NRC members and others

This edition of FORMATS is the first to be prepared on my new NEC Powermate 286 computer. I will not be using the office computer at night any more, not will I be rushing to make a train while doing Formats. I also purchased a Deskjet printer. The reason that this is mentioned is that any of you folks familiar with Deskjet fonts who want to suggest a font for this column please do so. I will then obtain a cartridge for that font.

Transitions....Geov Parrish notes that KLIF-1190, Dallas, has been sold, and will be all news. The KLIF call and talk format will move to the old WFAA (Remember????) - 570 address. And, WOKJ-1550, Jackson, MS., is the first 50,000 watt station in the US to go silent.

Phil Boersma, of Spring Lake, MI, writes that WBMX-640, Zeeland, MI has gone to an easy listening format on November 12. This is the third format change since August. It went from UC to CWM in September, and then to EZL in November after being silent for most of October. Anyone wanna buy a radio station? Phil also sends a Dial Scan for Muskegon, MI.

Along with Phil, this edition of FORMATS is brought to you by Rod O'Connor who resides in Kodiak, Land of the Midnight Sun, Eric Bueneman, of Woodstock, GA, and Geov Parrish just down the coast in Seattle, from Rod. Rod provides a Dial Scan for Anchorage (all of the stations that we of the "Lower 48" would like to verie), and Eric's Dial Scans from Rome, GA, and Chattanooga contain all of the stations that Rod would like to hear in Kodiak (and most of us, elsewhere!). The big question? Are the top three requested songs really Midnight at the Oasis, Ahab the Arab and the Shiek of Arabi? So much for now.

### Dialing

A "Confession Wednesday" caller to "B-96" morning men Joe Bohannon and Ed Volkman identified herself as the wife of a WLS-Channel 7 employee and claimed that her household had been chosen as a "Nielsen family" during the November ratings sweeps. She said their television sets were being kept on deliberately to register nonstop viewing of Channel 7. Ken Meyer, Midwest manager of A.C. Nielsen Co., said his office was investigating the matter as a possible violation of the company's sampling guidelines. Employees of broadcast outlets are prohibited from participating in ratings surveys. ... In conjunction with a one-night coast drive to benefit the homeless, Ed Schwartz will broadcast his WGN-AM (720) overnight show Friday from the station's Michigan Avenue showense studio. Gloves and scarves also will be accepted. ... News of the industry, of interest to DX'ers

...Tired of powerful stations blasting out those nearby which put out fewer watts? Electrical engineering professor Glen Myers wants to help. He's gotten a patent on technology which squelches a strong signal by creating an inverse of it & pitting it against its mirror image. The two cancel one another out, allowing a weaker signal to break through. Motorola has expressed interest in the technology, & Myers is close to licensing it... United Press International recently announced more lay-offs & bureau closings. An "editorial realignment" was begun about a year ago by UPI. The cuts include staffers in New Mexico, Wyoming, Montana, & North Dakota... From hC Conventiontown '90-Michael Davies of Pittsburgh has filed a complaint with the city's human relations Committee concerning a request show on station WSHH-FM. He asked to hear a song on the Wish for Lovers show dedicated to "my lover Michael." DJ Leah Klocko refused the request on the grounds that the station wants the show to be a romantic and not a lecherous one. They say they also refuse requests such as "from John to Mary, thanks for last night." Davies claims discrimination.. The "term wars" are heating up. In Indiana, WFBQ is demanding that competitor WFXR-FM drop the phrase "Classic rock", as they have trademarked the term. In '86 & '87, WFBQ filed for trademarks on the terms "Classic rock", "Classic Rock & Roll", "Classic Rock 'n Roll", and "Classic Roc" with the state. Indiana says it merely registers terms and it's up to the courts to decide if they're too generic. New Win Communications president George Sosson says WFXR

will fight to keep using the "classic rock" slogan, maybe even taking legal action against the state... Indecency also in radio news these days. AOR KLQL/Houston was fined \$6,000 by the FCC for a series of morning show call-in sex bits. Despite a pre-show disclaimer, the Rusk Corporation was fined over material that aired on the Stevens & Pruett morning show last february & march. As a result of the ruling, the station has issued guidelines to it's staff to avoid future indecencies, including banning live phone calls. In other rulings, KSD/St. Louis was recently fined \$2,000 stemming from an on-air reading of a Playboy article, and in september the aforementioned WFBQ/Indianapolis paid a \$10,000 fine levied for various segments of the Bob & Tom morning show ... Is WLUP-AM going all sports? That's the latest buzz around the Chicago market. It's speculated that sports will be added to the stations high-profile talent like Jonathan Brandmeier, much like WFAN in NY is built around Don Imus. Evergreen, owner of WLUP, says no... Here's a veritable nightmare for all you kids-radio homework! Oldies station KUUL in Davenport IA sponsors the Homework Hotline, where children can call up to get advice on homework problems. Teachers staff the phones monday-thursday 5-8pm. It's sponsored by the Iowa-Illinois Gas & Electric Co., which gets mentioned in all station promos... Here in Albany, the future of simulcasters WSHZ & WSHQ-FM, collectively known as SHQ radio, is in doubt. Owner Bruce Lyons, individually & doing business as The Radio Active Group, is the target of a bank lawsuit seeking repayment of several million

dollars borrowed since march of '88. The bank alleges that money lent to run the stations was instead spent on luxuries such as cars, a \$2,000 tv set and cash payments to Lyons' estranged wife. Lyons counter-charges dishonesty on the part of The Dartmouth bank. In addition to SKO, Lyons also owns WSCM-AM in Cobleskill. All 3 stations have been placed in the hands of a court-appointed receiver...

And finally, checking the ratings situation, in the latest birch results, the AM band, as always, has taken a beating. Only 2 major cities had AM's in the top position-Kansas City's WDAK, a country music station,

was in first, posting a 12.6 share, and in Cincinnati, WLW had a 15.8 share over the summer. In the spring, Hartford's WTIC-AM was on top, but in the summer slipped to #3 with an 11.0, behind country WyyZ-FM and Chk WTIC-FM.

## DX'ing from Sabana Grande de Boyá ... by César Objío

Trying to find a new place where to go to do some DX'ing my cousin Franklin and I are always talking, but being our country so small and an island far away from other lands we almost don't find a good spot where to find new and good DX'ing emotions except near the Haitian border: Jimaní, La Descubierta, Neiba, etc. We are planning one of these days to return, but our main problem is that we need at least two days for that trip and our country being so poor that there are not hotel accommodations where to stay, perhaps some of you may remember our adventure in Jimaní a couple of years ago.

Well... Where to go? I told him that there is a place where we could not find new or good DX'ing as it is too close to Santo Domingo, but if we wanted we might go there and check. It is so close that in one day we could make the round trip. He answered as he has always done: "Everytime we return to one place we always find something new, there happens to be a new name for a station, a change in frequency, or else." And it is true, you'll find below three new changes we found. It happens that in our country there seems to be an always moving situation in MW despite the ever increasing popularity of FM. So it was decided that our next visit was to be Sabana Grande de Boyá.

This is a place some 50 kms. north-north-east of Santo Domingo. The exact geographical position is this: 69° 47' W and 18° 56' N. See how close with the Santo Domingo position: 69° 52' W and 18° 28' N.

We started out at about 9 in the morning on Saturday January 20, 1990, straight north, and trying to get there the sooner the better we took the shortest route. Till Villa Mella, only 12 kms away, now just a Santo Domingo suburb, we rode on a smooth concrete highway. Then to La Victoria, 21 kms, not the same but still a good highway. This small town is known mostly in our country due to the place where the National Jail is situated, so much that many people don't even think that there is a town by itself right there even before the jail was built. So La Victoria comes to be like the name of the jail. (What kind of a 'Victory', you might say). Here we requested information about the road to take, but we were told that we had to return and take another one as our intended route was being repaired and it was not good for use. So, we had left the main road for a shorter one and had found that we still had to take another one, and in such a worst condition that we spent most of the morning through dirt roads and under a steady drizzle that prevented us to enjoy the landscape. After a couple of hours we arrived at the main highway and drove on. This was the one we had abandoned for those ~~XXXXXX~~ [censored] roads.

Monte Plata is not exactly on the highway, there is a 1 km distance on the right if you wish to visit the town, so we did. Our first discovery was that Radio Monte Plata-1280 is not named that way any longer. Despite the fact that it is so close to Santo Domingo, only 40 kms in a straight line, it is very difficult to be heard with just 1 kw. The new name is R. Klave, meaning like 'code key' in spy novels, but written with a K instead of a C. After a short stop we drove on till we arrived at our goal after noon. 75 kms by road from Santo Domingo but only 50 in a straight line.

Sabana Grande de Boyá is a small country town with some 5 to 10 thousand inhabitants, the main street is very wide but secondary streets are narrower, houses are small, a very quiet place with many trees and almost completely surrounded by sugar cane plantations, no noisy places playing loud disco music as in other towns, and as we found in Monte Plata right in the center of the town. It is customary in our towns to have a small "parque" (town square) comprising a whole square block in a selected place with gardens, benches, trees and walks for the people to have a quiet place where to sit, rest and talk with friends. In the center there is a round covered place (like a big gazebo, all concrete: strangely enough with a second story upstairs, they are usually erected a little above the walk, two or three steps high, but this one is different for the two stories) for the musicians to play on Sunday afternoons or evenings, if there is a municipal music band, a custom that is being abandoned due to the growth of FM radio stations and discoteques which allow you to listen to music anytime or even in your own home. So we found this square and sat on different places as I was on MW and Franklin on FM and started listening from 12:50 to 2:25 p.m. Receivers used were both Realistics: TRF and DX400 (TRF is better, so that is why I never leave it at home, DX400 is for measuring frequencies when in doubt). As usual strength is measured with 5 for a local station and 1 for too weak almost unintelligible. See what most of Santo Domingo stations are heard as locals. Here is what I heard:

- 540 R. ABC, Santo Domingo (5)
- 550 WJAB, Bonoe, P.R. (3)
